FORME TEC CORRUGATED LTD

Machine Service Enquiry Checklist

Capture the information that helps a service discussion start quickly.

CHECK	DETAILS TO CAPTURE
■	Machine make / model / year if known
■	Board grades, flute profiles and typical production range
■	Exact production symptom
■	When the symptom occurs and whether it is repeatable
■	Current machine settings relevant to the issue
■	Recent maintenance, component changes or engineering work
■	What has already been tried
■	Photos / video of the issue if available
■	Production impact: quality, speed, waste or downtime
■	Preferred timing for a technical visit

Use this checklist as a conversation starter. Product specifications and machine settings should be confirmed for the specific application.
